

NFAF – 33/6

Item 11: Small Grants Scheme (Joan Cundill)

There were 6 applications for £9,927 - so approximately £25,000 available for round 3.

Only one in NFAF area at Minstead for drainage works and re-surfacing to footpath 5, which is said to be often waterlogged. Popular route linking parts of the village. SGS approved in principle, but only the part of the grant application which is to improve the path but not the adjoining farm field. Need more information as quotes only for drainage and not for re-surfacing.

Sarah Manchester is now chairing the SGS panel meeting. There needs to be a representative from the NPA as they add 25% funding to projects in their area.
