

## New Forest Mitigation Project: Buttsash Woodland Walk

- Surfacing approx. 900m of existing footpaths, approx. 620m on Definitive Map, plus installation of recycled plastic boardwalks to replace existing, disintegrating timber boardwalks
- Fourth project in a series of New Forest District Council 'Mitigation Strategy' projects, this one focusing on improving footpaths in Buttsash Woods, Hythe, an important recreational area for local residents
- Works: £ 69,830.97 of Mitigation Strategy funding (9 wks on site), officer time paid for by project
