

National Park Access Updates June 2021

The Path Clearance Crew is out working again

We have restarted our volunteering efforts and are paring back rights of way with groups of ten volunteers. We are prioritising our network of promoted routes but are liaising with Wiltshire Council and Hampshire County Council's rights of way teams to see what extra help we can provide.

Stile replaced with Gate

We worked together with the Exbury Estate to replace this old stile with a new, wooden pedestrian gate.

England Coast Path

The latest time estimates on the Calshot to Gosport section of the England Coast Path are for establishment works to start in August this year. We will have 18 months to complete the work. Time estimates for the Highcliffe to Calshot section are that works may start in 2022 and last until 2023.

The New Forest Access Forum

We conducted a large-scale recruitment drive with across social media and traditional newspaper adverts. We had over forty applications to join the forum many of which were of a exceedingly high level. We will welcome nine new members into the forum and are looking forward to working with them.
